
Biosoftworld Medical Scheduler Keygen

Biosoftworld Medical Scheduler Crack Activation Code [32|64bit]

Biosoftworld Medical Scheduler is a simple to use, yet comprehensive digital assistant for medical staff and institutions, that enables them to keep record of patients, appointments, prescriptions, medical bills and medicine providers. Reliable database organizer The software requires that you load an existing database, but it can also create a new document in order to store patient records, prescription histories or medical bills details. Thus, Biosoftworld Medical Scheduler is a useful multiple function instrument, that enables you to manage administrative, organizing and financial aspects. The application features a user-friendly interface, which makes it easy for you to view patient information, set appointments, prescribe medicine or generate invoices. The software's functions are organized in separate tabs, with a specific header menu for each of them. You may easily access Appointments, Patients, Prescriptions, Billing details and Laboratory orders, by simply clicking on the dedicated tab.

Medical visit scheduler You can create a database of patients, and keep records of all the treatments they were recommended, as well as store data about their medical conditions, with every medical visit. Once you select a patient, you can easily set an appointment with one of the doctors. The appointment sheet contains the patient's contact details and data gathered from a quick consultation. Recurring appointments can also be set. Each patient sheet may contain their medical history, contact data and scan results, as well as the dates from each appointment. As a doctor, you may prescribe certain medication, by selecting the active substance from the drug database. Additionally, you may also create invoices and mark them as pending, paid or partially paid. Customizable report designer You may create invoices, CMS-1500 data sheets, statements, medical bills, financial graphs or activity reports from the Billing tab. The report designer enables you to customize the layout of the printable sheets and include any kind of data you wish, while the graphs present statistical information regarding a series of aspects. The software offers a preview of the report sheet on the right side of the window. Conclusion Biosoftworld Medical Scheduler enables you to keep record of your patients appointments and plan for future medical visits. You may set single time patient visit or create recurrent consultations for more complicated conditions. Moreover, you may manage administrative and financial aspects of your medical institutions, such as medicine stocks, laboratory orders and medical bills. Biosoftworld Medical Scheduler Key Features: Specialized in medical appointment
